

Federal Communications Commission Statement (Class A)

NOTE- This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Class A ITE:

Class A ITE is a category of all other ITE which satisfies the class A ITE limits but not the class B ITE limits. Such equipment should not be restricted in its sale but the following warning shall be included in the instructions for use:

Warning - This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

NOTICE

SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE. THE INFORMATION CONTAINED HEREIN IS TO BE CONSIDERED FOR REFERENCE ONLY.

WARNING

TO REDUCE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE. WARRANTY VOID FOR ANY UNAUTHORIZED PRODUCT MODIFICATION.

THE MARK OF CROSSED-OUT WHEELED BIN INDICATES THAT THIS PRODUCT MUST NOT BE DISPOSED OF WITH YOUR OTHER HOUSEHOLD WASTE. INSTEAD, YOU NEED TO DISPOSE OF THE WASTE EQUIPMENT BY HANDING IT OVER TO A DESIGNATED COLLECTION POINT FOR THE RECYCLING OF WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT. FOR MORE INFORMATION ABOUT WHERE TO DROP OFF YOUR WASTE EQUIPMENT FOR RECYCLING, PLEASE CONTACT YOUR HOUSEHOLD WASTE DISPOSAL SERVICE OR THE SHOP WHERE YOU PURCHASED THE PRODUCT.

Remote Control Battery Safety Information

- Store batteries in any cool & dry place.
- Do not dispose used batteries in domestic waste. Dispose batteries at special collection points or return to stores if applies.
- Remove the batteries if they are not in use for long period of time. Battery leakage and corrosion can damage the remote control, dispose batteries safely.
- Do not mix and use old and new batteries.
- Do not mix and use different types of batteries: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Do not dispose batteries in a fire.
- Do not attempt to short circuit the battery terminals.

Package Contents

Make sure the following items are included in the package.

AVerVision PL50

Dust Cover

USB Cable

RGB Cable

Power Adapter (12V, 2A)

* The power adapter will vary depending on the standard power outlet of the country where it is sold.

Remote Control
(batteries included)

Software & Manual CD

* Some country the Software and Manual CD may not be included in the package but the files can be downloaded in our website.

Optional Accessories

Microscope Adapter

Anti-glare Sheet

34mm Rubber Coupler

28mm Rubber Coupler

AVer AP20T
(Interactive Wireless Pen)

Get Familiar with the AVerVision PL50

(fig. 1.1)

Name	Function
(1) Camera head	Contain the camera sensor.
(2) Camera lens	Focus the image in the camera.
(3) Rear panel	Connections and switches for the following : <ul style="list-style-type: none"> ▪ Power ▪ Computer for RGB input display ▪ Display device for RGB, HDMI, or RCA video output ▪ Microphone ▪ Speaker ▪ SD card for picture and video recording storage ▪ RS-232 for serial communication between computer and AVerVision PL50 ▪ USB standard for USB flash drive and AP20T/mouse connection ▪ Mini USB for computer data transfer or USB camera connection ▪ TV-RGB display output switch ▪ USB Flash Drive - PC switch
(4) Side Lights	Provide light when presenting in dimmed lighting condition.
(5) Light box	Provide light for viewing x-ray, film or transparency.
(6) Arm latch	Extend and retract the arm.
(7) Base latch	Fold and unfold the arm.
(8) Built-in MIC	Record audio when recording video clip. The recorded sound will be in monophonic.
(9) Control panel	Easy access to various functions.
(10) IR sensor	Receive remote control commands.

Rear Panel

(fig. 1.2)

Name	Function
(1) VIDEO OUT	Outputs the video signal from the AVerVision PL50 camera to a TV or video equipment.
(2) PC1 / PC2	Input the signal from a computer or other sources and pass it through to the RGB 1/2 OUT port only. Connect this port to the RGB/VGA output port of a computer.
(3) Speaker port	Connect to an amplified speaker.
(4) MIC port	Connect a 3.5mm plug microphone. The built-in mic will be disabled when an external MIC is connected to this port.
(5) TV - RGB switch	TV to output display video from VIDEO OUT, and RGB to RGB 1/2, and HDMI OUT ports.
(6) USB Flash Drive switch - USB PC	Switch to left (◀) for audio video recording directly to a USB flash drive and right (▶) when connecting AVerVision PL50 to a computer using a USB cable.
(7) RS-232	Connect to the computer serial port, or to any control panel, or for centralized control if desire.
(8) DC12V port	Connect the power adapter into this port.
(9) RGB 1 / RGB 2	Connect the AVerVision PL50 to any display device with RGB cable
(10) HDMI OUTPUT	Connect the AVerVision PL50 to any display device with HDMI interface using HDMI cable.
(11) SD card slot	Insert the SD card with the label facing up.
(12) USB Thumb Drive port	Insert a USB flash drive for audio video recording storage or connect a AP20T/ mouse for the Annotation feature.
(13) Mini USB port	Connect to a USB port of a computer using a USB cable and use the AVerVision PL50 as a USB Camera or transfer the captured images/videos either from the memory source to computer.

Control Panel

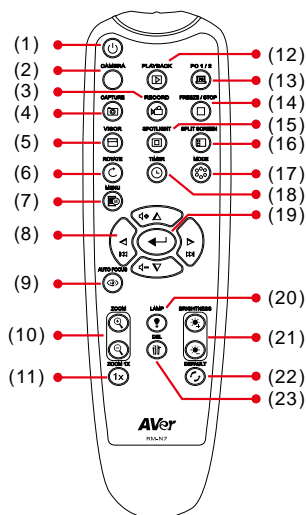

(fig. 1.3)

Name	Function
(1) POWER	Turn the unit on/standby.
(2) CAMERA	Camera mode displays the video signal from the built-in camera.
(3) CAP/DEL	<ul style="list-style-type: none"> - Capture picture in Camera mode. In continuous capture mode, press this button again to stop. - Delete the selected picture/video in Playback mode.
(4) RECORDING	Start/Stop audio & video recording. Audio and video recording can be saved on an SD card or a USB Flash drive only. See External Memory Storage .
(5) LAMP	Turns on the side lights, light box, or off.
(6) MIC	Record audio automatically when recording video clip.
(7) ZOOM +/-	<ul style="list-style-type: none"> - Increase/decrease the image magnification in camera and picture playback mode.
(8) MENU	Open and exit the OSD menu.
(9) ▲, ▼, ◀, ▶	<ul style="list-style-type: none"> - Pan and zoom-in image (above digital zoom level) in both live and playback mode. - Select options in OSD menu. - Use ▲ & ▼ to increase and decrease the video playback volume. - Use ◀ & ▶ to play the video backward and forward. - Move the Spotlight frame and Visor screen cover.
(10) ENTER/ ZOOM 1X	<ul style="list-style-type: none"> - Make a selection in Playback mode and OSD menu. - Start/Pause video playback. - Reset zoom level to 100%.
(11) AUTO FOCUS	Adjust the focus automatically.
(12) ROTATE	Rotate the image by 90° in Camera mode and Playback mode.
(13) FREEZE / STOP	<ul style="list-style-type: none"> - Pause or resume image display in Camera mode. - Stop audio & video playback in Playback mode.
(14) PLAYBACK	View & playback captured still images and audio video files.
(15) PC 1/ PC2	PC mode displays the video signal from the RGB 1/ 2 port of AVerVision PL50

Remote Control

The remote control requires two (2) “AAA” size batteries (supplied), make sure batteries are installed properly before use. You can access all the features of AVerVision PL50 with the remote.

(fig. 1.4)

Name	Function
(1) POWER	Turn the unit on/standby.
(2) CAMERA	Camera mode displays the video signal from the built-in camera.
(3) RECORD	Start/Stop audio & video recording. Video recording can only be saved either in a SD memory card or a USB flash drive.
(4) CAPTURE	Capture still image in Camera mode. In continuous capture mode, press this button again to stop.
(5) VISOR	Call the Visor submenu. Visor covers part of the presentation screen and allow presenter to reveal the material as desire. In the Visor submenu, the following options are available. <div data-bbox="674 683 903 858" data-label="Image"> </div> <p>ON/OFF – select to run/cancel the Visor.</p> <p>Press  to move to the next selection.</p> <p>Shade – set the opacity level of the covered area. The shaded area will completely turns black when it is set to level 100. Press  to move to the next selection.</p> <p>OK – press  for the setting to take effect. If you select ON, upper part of the presentation screen is slightly exposed. Use the ▲, ▼, ◀, & ▶ buttons to reveal more of the covered area; and OFF will close the submenu.</p> <p>To turn off Visor, press  again.</p>
(6) ROTATE	Rotate the image by 90° in Camera mode and Playback mode.
(7) MENU	Open and exit the OSD menu.

(fig. 1.4)

Name	Function
(8) ▲, ▼, ◀, & ▶	<ul style="list-style-type: none"> - Pan and zoom-in image (above digital zoom level) in both live and playback mode. - Select options in OSD menu. - Use ▲ & ▼ to increase and decrease the video playback volume. - Use ◀ & ▶ to play the video backward and forward. - Move the Spotlight frame and Visor screen cover.
(9) AUTO FOCUS	Adjust the focus automatically.
(10) ZOOM +/-	<ul style="list-style-type: none"> - Increase/decrease the image magnification in camera and picture playback mode.
(11) ZOOM RESET	Reset zoom level to 100%.
(12) PLAYBACK	View the captured picture/video from the memory in 16-thumbnail images.
(13) PC 1/2	PC mode displays the video signal from the RGB INPUT port of AVerVision PL50.
(14) FREEZE / STOP	<ul style="list-style-type: none"> - Freeze live images. - Stop video playback.
(15) SPOTLIGHT	<p>Call the Spotlight submenu. Spotlight overlays a box frame on the presentation screen. You can adjust the box size and move it around.</p> <p>In the Spotlight submenu, the following options are available.</p>

ON/OFF – select to run/cancel the

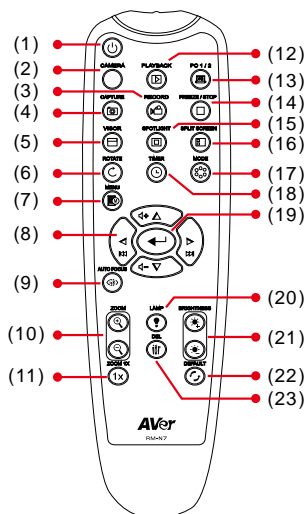

Spotlight. Press ◀ to move to the next selection.

Shade – set the opacity level of the area outside the box. The shaded area will completely turns black when it is set to

level 100. Press ◀ to move to the next selection.

Color – select the Spotlight frame color.

Press ◀ to move to the next selection.

(fig. 1.4)

Name	Function
(15) SPOTLIGHT	<p>OK – press  for the setting to take effect. If you select ON, the frame will appear and blink, use the , , , &  buttons to adjust the frame size and press  to set the desired size; and OFF will close the submenu.</p> <p>To turn off Spotlight, press  again.</p>
(16) SPLIT SCREEN	<p>Divide the screen into two. One side displays the live image from the built-in camera and the other side displays 8-thumbnail size picture/video from the memory.</p>
(17) MODE	<p>Select from 6 type of modes:</p> <p>Sharp - adjust the contrast along the edges making text appear more visible. Viewing the subject from 32-36 cm (16X zoom) away from the camera.</p> <p>Graphics - adjust the gradient of image. Viewing the subject from 32-36 cm (16X zoom) away from the camera.</p> <p>Motion - increase frame rate. Sufficient lighting is required when using this mode. Viewing the subject from 32-36 cm (16X zoom) away from the camera.</p> <p>Microscope - automatically adjust optical zoom for microscopic viewing.</p> <p>Macro - set to view when object is only 10-32cm (5X zoom) away from the camera.</p> <p>Infinite - set to view when subject is from 36 cm to infinity (Max.16X) and further away from the camera.</p>
(18) TIMER	<p>Call the Timer submenu. Select to Start/Pause/Stop the timer countdown and set the timer duration.</p>
(19) 	<ul style="list-style-type: none"> - Make a selection in Playback mode and OSD menu. - Play/Pause video playback.
(20) LAMP	<p>Turn the overhead light on/off.</p>
(21) BRIGHTNESS +/-	<p>Adjust the brightness.</p>
(22) DEFAULT	<p>Reset to factory default setting.</p>
(23) DEL	<p>Delete the selected picture/video in Playback mode.</p>

Making the Connections

Before making the connection, make sure the power of all devices are turned off. If you are not sure on where to connect, simply follow the illustrated connections below and also refer to the user manual of the device you are connecting the AVerVision PL50 with.

Set the TV-RGB Switch Setting

The TV-RGB switch determines the display output selection. Switch it to RGB (right) to output signal using RGB/HDMI connection and TV (left) to output signal using RCA connection. (see fig. 1.2 # 5)

Switch	AVerVision Port		Display Device Port
RGB	 RGB 1/2 OUTPUT	To	 RGB INPUT
	 HDMI OUTPUT		 HDMI INPUT
TV	 VIDEO OUT		 VIDEO IN

Connect to a Monitor or LCD/DLP Projector

Locate the RGB (VGA) input port of the graphics display device and connect it to RGB OUTPUT port of AVerVision PL50.

Make sure the TV/RGB switch is set to RGB.

Connect to a Monitor or LCD/DLP Projector with HDMI interface

Locate the HDMI input port of the display device and connect it to HDMI OUTPUT port of AVerVision PL50.

Make sure the TV/RGB switch is set to RGB.

Connect to a TV

Locate the VIDEO or SCART RGB (if applicable) input port of the TV or Video equipment (i.e., VCR) to record your presentation and connect it to VIDEO OUT port.

Connecting the Power

Connect the power adapter to a standard 100V~240V AC power outlet. The unit

automatically in standby mode once the power is connected. Press  to turn on.

Connect to a Computer

Locate the RGB (VGA) output port of the computer or laptop and connect it to RGB INPUT port of AVerVision PL50. The video signal from the RGB INPUT port is streamed to RGB OUTPUT port.

- To display computer image, press PC1 / PC2 button on the control panel or remote control to switch AVerVision PL50 to computer mode.
- For laptop to output display image, use the keyboard command (FN+F5/F8) to switch between the display modes. For different command, please refer to your laptop manual.

Connect to a Computer via USB

Locate the USB port of the computer or laptop and connect it to USB port of AVerVision PL50. This enables you to use AVerVision PL50 as a USB Camera or to transfer the captured pictures/videos from the memory and to computer. Also see “Transfer File from AVerVision PL50 to PC”.

Make sure the USB Flash Drive switch (see fig. 1.2 #6) is set to the right.

Connect an External Microphone

Plug a 3.5mm mono microphone to  port. The built-in microphone on the control panel will be disabled when an external microphone is connected. The recorded audio will be in monophonic sound.

Connect an Amplified Speaker

Plug a 3.5mm plug amplified speaker to  port. Only the audio from the video playback is supported.

We recommend connecting an amplified speaker to the Audio output port. Take caution when using earphones. Adjust the volume down on the remote to prevent hearing damage due to loudness.

Connect to a Microscope

Connect the AVerVision PL50 to a microscope enables you to examine microscopic objects on a big screen.

1. Change the image display mode to Microscope. Press **MENU** > select **IMAGE** tab > select **MODE** > select  (**microscope**) and press .

2. Aim the camera head at the farthest point and press **AUTO FOCUS**.
3. Twist the camera lens counterclockwise to remove and unhook the latch.

4. Adjust the focus of the microscope.

5. Select the appropriate rubber coupler size for the microscope eyepiece and insert it in the microscope adapter.
6. Remove the microscope eyepiece from the microscope and connect it to the microscope adapter with the rubber coupler inserted. Fasten the 3 bolts until the adapter secures the eyepiece.

For the eyepiece, we suggest using 15.5mm eye relief or higher.

7. Attach the microscope adapter to the AVerVision camera head. Then connect it to the AVerVision and microscope. For easy connection and adjustment, unlock the base latch to adjust the arm angle and arm latch to adjust the arm length.

Setting Up AVerVision PL50

This section provides useful tips on how to adjust the AVerVision PL50 to meet your needs.

Camera Head

The camera head can turn freely at 180° to the left and right and 235° up and down.

If the camera head is in upright position, you can also press ROTATE on the remote control twice to rotate the image in 180°.

Mechanical Arm

The mechanical arm design can extend for a full A4 paper viewing. Press the arm latch to extend the arm length and the base latch to fold and unfold the arm.

Unfold the Side Lights

Simply follow the illustration below to unfold the side lights. Press LAMP on the control panel to turn on the side lights.

Infrared Sensor

Aim the remote control at the infrared sensor to operate the unit.

Light Box

Use the light box to view x-rays, films, transparencies, and slides. Press LAMP to switch to turn on the base light.

- **DO NOT** place an object weighing more than 8kg on top of the light box.
- **DO NOT** write on the light box surface or use marker that could stain the light box surface.
- **DO NOT** use any sharp object such as cutter knife on top of the light box surface.

Handling the AVerVision PL50

The AVerVision PL50 must be folded in storage position and use two hands to carry it from the base.

- **DO NOT** carry the unit from the side lights or camera head arm. This may not be able support the weight and it will damage the mechanical joint.

Anti-glare Sheet

The anti-glare sheet is a special coated film that helps eliminate any glare that maybe encountered while displaying very shiny objects or glossy surfaces such as magazines and pictures. To use, simply place the anti-glare sheet on top of the shiny document to reduce reflected light.

External Memory Storage

AVerVision PL50 supports both SD memory card and USB flash drive for more image capture and audio & video recordings. AVerVision PL50 can detect when there is an external storage media and automatically switch to the last detected storage. If no external storage is connected, all captured still images will be saved in the built-in memory.

Insert an SD Card

Insert the card with the contact facing down until it reaches the end. To remove the card, push to eject and pull the card out. The supported SD card capacity is from 1GB to 32GB (FAT).

SD Card

Insert a USB Flash Drive

Make sure to set the USB Flash Drive switch (see fig. 1.2 #1) to the left before inserting a USB flash drive. AVerVision PL50 can support USB flash drive from 2GB to 64GB (FAT).

USB Flash Drive

OSD MENU

There are 4 tabs on the OSD menu: IMAGE, PRESENTATION, SETTING and SYSTEM. In Playback mode, you can access PLAYBACK OSD menu to enable the Slide Show feature and modify Slide Show interval and transition setting if desire.

For TV output, the RESOLUTION will be disabled in SETTING menu list.

Image

Menu Screen

Function

Brightness

Adjust brightness level manually between 0 and 63.

Contrast

Adjust the contrast level manually between 0 and 255 under bright and dark environments.

Menu Screen

Function

Mode

Select from the various image display settings.

 **Sharp** - adjust the contrast along the edges making text appear more visible. Viewing the subject from 32-36 cm (16X zoom) away from the camera.

 **Graphics** - adjust the gradient of image. Viewing the subject from 32-36 cm (16X zoom) away from the camera.

 **Motion** - increase frame rate. Sufficient lighting is required when using this mode. Viewing the subject from 32-36 cm (16X zoom) away from the camera.

 **Microscope** - automatically adjust optical zoom for microscopic viewing.

 **Macro** - set to view when object is only 10-32cm (5X zoom) away from the camera.

 **Infinite** - set to view when subject is from 36 cm to infinity (Max.16X) and further away from the camera.

Effect

Convert the image into positive (true color), monochrome (black and white) or negative.

Mirror

Select to flip the image in Camera mode.

Menu Screen

Function

Advanced

Select to set the Auto Image, Exposure, and White Balance settings.

**Auto Image**

Select ON or OFF to automatically adjust the white balance and exposure setting, and correct the color and exposure compensation.

**Exposure**

Select the exposure setting.

AUTO - automatically adjust the camera exposure and the amount of light required.

MANUAL - manually adjust the exposure level. The exposure can be adjusted up to 99.

**White Balance**

Select the White Balance setting for various light conditions or color temperature.

AUTO - automatically adjust the white balance.

MANUAL - manually adjust the red and blue color level. The color level can be adjusted up to 255.

**Focus**

Manually adjust the focus.

Presentation

Menu Screen

Function

Spotlight

Spotlight overlays a frame on the presentation screen. You can move the Spotlight around the presentation screen using the ▲, ▼, ◀, & ▶ buttons. Select Execute to call the Spotlight submenu.

In the Spotlight submenu, the following options are available.

ON/OFF – select to run/cancel

the Spotlight. Press ◀ to move to the next selection.

Shade – set the opacity level of the area outside the box. The shaded area will completely turns black when it is set to level 100. Press ◀ to move to the next selection.

Color – select the Spotlight frame color. Press ◀ to move to the next selection.

OK – press ◀ for the setting to take effect. If you select ON, the frame will appear and blink, use the ▲, ▼, ◀, & ▶ buttons to adjust the frame size and press ◀ to set the desired size; and OFF will close the submenu.

Visor

Visor covers the presentation screen. The upper part of the presentation screen is slightly exposed. Use the ▲, ▼, ◀, & ▶ buttons to reveal more of the covered area. Select Execute to call the Visor submenu.

Menu Screen

Function

In the Visor submenu, the following options are available.

ON/OFF – select to run/cancel the Visor. Press to move to the next selection.

Shade – set the opacity level of the covered area. The shaded area will completely turn black when it is set to level 100. Press to move to the next selection.

OK – press for the setting to take effect. If you select ON, upper part of the presentation screen is slightly exposed. Use the , , , & buttons to reveal more of the covered area; and OFF will close the submenu.

PIP

Select the thumbnail playback screen location and show the thumbnail playback screen at the corner of the screen to recall the captured image from the memory in Camera mode. Select OFF to cancel PIP.

- Lower Left
- Upper Left
- Upper Right
- Lower Right

Split Screen

Divide the screen into two parts. Half of the screen displays the 8-thumbnail images and the other half display the image from the AVerVision PL50 camera. Select the display location of the 8- thumbnail playback images. Select OFF to cancel Split Screen.

- Left
- Right
- Top
- Below

Menu Screen

Function

Timer

Start/Pause/Stop the timer and set the timer duration. The timer automatically counts up after the count down reaches zero to show the elapsed time. Even when you switch between Playback, PC or Camera modes, the timer will continue.

Setting

Menu Screen

Function

Capture

Select to set the capture resolution, quality, type and interval settings.

Resolution

Select the capture size. In 5M setting, the capture resolution size is 2560 X 1920.

If the output display setting is in 1280 x 720 or 1920 x 1080, the capture resolution size will be 2560 x 1440 and as for 1280 x 800 output display the capture size will be 2560 x 1600.

Quality

Select the capture compression setting.

Menu Screen

Function

Type

Select the capture type.

Single - capture one picture only.

Continuous - capture successive pictures.

Interval

Set the time interval for continuous capture. The length can be set up to 600 sec (10 min).

Recording

Select the video recording compression setting.

Storage

Change the storage location. Audio & video recording can only be saved in SD memory card or USB flash drive.

Format

Format to delete all the data in the selected memory.

Menu Screen

Function

USB to PC

Select the status of the AVerVision PL50 when it is connected to the computer via USB. Make sure the USB switch on the rear panel is set to .

Camera - can be used as a computer webcam or with our bundled software to record video and capture still image.

Storage - transfer the captured pictures/videos from the memory to computer hard disk.

Flicker

Select between 50Hz or 60Hz. Some display devices cannot handle high refresh rates. The image will flicker a couple of times as the output is switched to another refresh rate.

System

Menu Screen

Function

Language

Change and select different language.

Output Display

Set the resolution to display the image on screen. This selection will be disabled in TV output mode.

Backup

Copy the image from the built-in memory to SD card or USB flash drive.

Menu Screen

Function

Save Setting

Save the current setting in the selected profile number. Only brightness, contrast, image mode, effect, auto image setting, flicker, recording quality, capture resolution, and capture quality can be saved.

**Recall Setting**

Restore the setting back to the selected profile number.

**Information**

Display the product information.

**Default**

Restore all the settings into original factory default setting.

Playback

Menu Screen

Function

Slide Show

Display all captured still pictures in an automated slide show. The video file will be skipped.

Interval

Set the interval before displaying the next picture. The length can be set up to 100 sec.

Slide Show Effect

Select the slide show transition effect.

Slide image

Checker down

Wipe down

Wipe right

Split Vertical Out

Split Horizontal Out

Current Storage

Select the source of the images.

Delete All

Permanently delete all the data in selected memory source. A Warning Message will appear. Select YES to continue and NO to stop formatting the storage.

Annotation

In single image playback mode or when the screen is frozen in camera mode, you can use the annotation feature to overlay straight line or freeform line on the captured image or still camera screen with the USB mouse or AP20T connected to the USB port of AVerVision PL50. It comes with the following selections: Color Palette, Line Thickness, Line, Freehand, Capture, Eraser, and Hide/Show icons.

Annotation can only be supported in the following resolution setting :

- 1024 x 768
- 1280 x 720
- 1280 x 1024

Connecting a USB mouse or AP20T

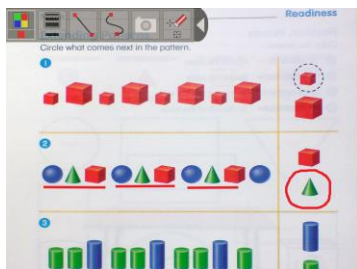

1. Set the USB switch on the rear panel to .
2. Connect the USB mouse cable or AP20T dongle to the USB slot of AVerVision PL50.

Using the Annotation Control Panel

The annotation control panel appears on the upper left corner of the screen. A cursor will

appear on the screen. Move the cursor on the Annotation control panel selections and left-click to select the features you want to use.

Name	Function
 Color Palette	Select the line color.
 Line Thickness	Select the thickness of the line.
 Line	Select to draw a straight line.
 Freehand	Select to draw freeform line.
 Capture	Capture the image with the annotation and save it as a new file.
 Eraser	Select to erase any part of the annotation that it comes in contact with or delete all annotation.
 Hide/Show	Shrink or expand the annotation menu.

Using the AP20T Slide Switch and F button

The slide switch and F button of AP20T allow you to use it to freeze the screen when you are in camera mode and zoom in and out the image when you are in playback and camera mode. With the Point Focus feature, you can adjust the focus anywhere on the screen by simply pressing the pen tip on a flat surface.

Name	Function
(1) Slide Up	Increase the magnification.
(2) Slide Down	Decrease the magnification
(3) F	Freeze the screen in camera mode and turn on Annotation.
(4) Pen tip	Press to adjust the camera focus on the point where the cursor is located.

Transfer Captured Images/Videos to a computer

This enables you to transfer the captured image from the built-in memory or SD to a computer.

The instruction below **MUST** be read and followed **BEFORE** connecting the USB cable.

1. Make sure to set the USB switch to  for the computer to detect AVerVision PL50.
2. **MUST** set the USB to PC as STORAGE before connecting the USB cable.
3. When **"MASS STORAGE"** appears at the lower right corner of the presentation screen, you may now connect the USB cable.
4. Upon connecting the USB cable, the system automatically detects the new removable disk. You can now transfer the captured image(s) from the **AVerVision PL50 built-in memory** to the computer hard disk.

Technical Specifications

Image

Sensor	1/3.2" CMOS
Pixel Count	5 megapixels
Frame Rate	30 fps (max.)
White Balance	Auto / Manual
Exposure	Auto / Manual
Image mode	Sharp / Graphics / Motion / Microscope / Macro / Infinite
Effect	Color / B/W / Negative / Mirror / Rotate / Freeze
RGB output	1920x1080, 1600x1200, 1280x1024, 1280x720, 1024x768, 1280 x 800
HDMI output	HD 1080p; HD 720p
Image Capture	240 Frames(XGA) ; 80 Frames(5M Pixel)

Optics

Focusing	Auto / Manual
Shooting Area	400mm x 300mm (15.74" x 11.81")
Zooming	16X Optical Zoom, 15X Digital Zoom, Total = 240X

Power

Power Source	DC 12V 2A, 100-240V, 50-60Hz
Consumption	16.8 Watts (lamps off); 18 Watts (side lamp on); 18 Watts (light box on)

Lighting

Light Source	Side LED lamps x 2
Light box	329mm x 265mm (12.95" x 10.43")

Input/Output

RGB Input 2x	15-Pins D-sub (VGA)
RGB Output 2x	15-Pins D-sub (VGA)

HDMI Output	HDMI
RS-232	RS-232 serial port
Composite Video	RCA Jack
USB	USB2.0
DC 12V Input	Power Jack
MIC	Phone Jack
Speaker	Phone Jack

Dimension

Operating	630mm x 510mm x 505mm (+/-2mm include rubber foot)
Folded	470mm x 510mm x 165mm (+/-2mm include rubber foot)
Weight	6.5 kg (about 14.3300 lbs)

External Storage

Secure Digital (SD)	Max 32GB (FAT)
USB Flash Drive	Max 64GB (FAT)

RS-232 Diagram Connection

AVerVision PL50 can be controlled using a computer or any centralized control panel through RS-232 connection.

RS-232 Cable Specifications

Make sure the RS-232 cable matches the cable specification design.

RS-232 Transmission Specifications

- Start bit : 1 bit
- Data bit : 8 bit
- Stop bit : 1 bit
- Parity bit : None
- X parameter : None
- Baud rate (Communication speed) : 9600bps

RS-232 Communication Format

Send Device Code(1 Byte) : 0x52
 Type Code(1 Byte) : 0x0B
 DataLength Code(1 Byte) : 0x03
 Data Code(1 Byte) : See the Command Table for reference.
 Data Code(2 Byte) : See the Command Table for reference.
 Data Code(3 Byte) : See the Command Table for reference.

Troubleshooting

This section provides many useful tips on how to solve common problems while using the AVerVision PL50.

There is no picture on the presentation screen.

1. Check all the connectors again as shown in this manual.
2. Check the on/off switch of the display output device.
3. Verify the setting of the display output device.
4. If you are presenting from a notebook or computer through the display output device, check the cable connection from computer RGB (VGA) output to RGB input of AVerVision PL50 and make sure AVerVision PL50 is in PC Mode.
5. For HDMI display output, a delay occurs while waiting for both the display device and AVerVision PL50 to sync up. Wait for around 4 to 7 seconds until you see the camera image on the screen.

I have set up the AVerVision PL50 and checked all the connections as specified in the manual but I cannot get a picture on the preferred presentation screen.

1. The unit POWER button turns orange in standby mode. Press the POWER button again to turn on and the LED light will turn blue.
2. The default camera display resolution setting is on 1024x768. If your output device does not support this resolution; no image can be projected. Simply press hold the FREEZE and ► button to the change the resolution setting.
3. If your display output device is on TV or any analog device, please switch the TV-RGB dip switch to TV.

The picture on the presentation screen is distorted or the image is blurry.

1. Reset all changed settings, if any, to the original manufacturer default setting. Press **DEFAULT** on the remote or select Default in Basic tab OSD menu.
2. Use the Brightness and Contrast menu functions to reduce the distortion if applicable.
3. If you discover that the image is blurry or out of focus, press the Auto Focus button on the control panel or remote control.

There is no computer signal on presentation screen.

1. Check all the cable connections among the display device, AVerVision PL50 and your PC.
2. Connect your PC to the AVerVision PL50 first before you power on your computer.
3. For notebook, repeatedly press FN+F5/F8 to toggle between display modes and display the computer image on the presentation screen. For different command, please refer to your laptop manual.

The presentation screen does not show the exact desktop image on my PC or Notebook after I toggle from Camera to PC mode.

1. Return to your PC or Notebook, place the mouse on the desktop and right click, choose "Properties", choose "Setting" tab, click on "2" monitor and check the box "Extend my Windows desktop onto this monitor".
2. Then go back one more time to your PC or Notebook and place the mouse on the desktop and right click again.
3. This time choose "Graphics Options", then "Output To", then "Intel® Dual Display Clone", and then choose "Monitor + Notebook".
4. After you follow these steps, you should be able to see the same desktop image on your PC or Notebook as well as on the presentation screen.

AVerVision PL50 can't detect the inserted USB flash drive.

Make sure the USB flash drive switch is set to the left and check if the USB flash drive is properly inserted.

I have connected the mouse/AP20T and switch to playback single image preview or in camera freeze mode but still the Annotation control panel doesn't show up.

1. Check the USB switch on the rear panel is set to .
2. Make sure the resolution setting is set to the annotation supported resolution setting of either 1024 x 768, 1280 x 720, or 1280 x 1024.

The recorded video on MAC with the bundled software doesn't have sound.

Due to some limitation, we recommend recording the audio directly from the MAC MIC IN port for better audio quality.

Limited Warranty

For a period of time beginning on the date of purchase of the applicable product and extending as set forth in the **"Warranty Period of AVer Product Purchased"** section of the warranty card, AVer Information, Inc. ("AVer") warrants that the applicable product ("Product") substantially conforms to AVer's documentation for the product and that its manufacture and components are free of defects in material and workmanship under normal use. "You" as used in this agreement means you individually or the business entity on whose behalf you use or install the product, as applicable. This limited warranty extends only to You as the original purchaser. Except for the foregoing, the Product is provided "AS IS." In no event does AVer warrant that You will be able to operate the Product without problems or interruptions, or that the Product is suitable for your purposes. Your exclusive remedy and the entire liability of AVer under this paragraph shall be, at AVer's option, the repair or replacement of the Product with the same or a comparable product. This warranty does not apply to (a) any Product on which the serial number has been defaced, modified, or removed, or (b) cartons, cases, batteries, cabinets, tapes, or accessories used with this product. This warranty does not apply to any Product that has suffered damage, deterioration or malfunction due to (a) accident, abuse, misuse, neglect, fire, water, lightning, or other acts of nature, commercial or industrial use, unauthorized product modification or failure to follow instructions included with the Product, (b) misapplication of service by someone other than the manufacturer's representative, (c) any shipment damages (such claims must be made with the carrier), or (d) any other causes that do not relate to a

Product defect. The Warranty Period of any repaired or replaced Product shall be the longer of (a) the original Warranty Period or (b) thirty (30) days from the date of delivery of the repaired or replaced product.

Limitations of Warranty

AVer makes no warranties to any third party. You are responsible for all claims, damages, settlements, expenses, and attorneys' fees with respect to claims made against You as a result of Your use or misuse of the Product. This warranty applies only if the Product is installed, operated, maintained, and used in accordance with AVer specifications. Specifically, the warranties do not extend to any failure caused by (i) accident, unusual physical, electrical, or electromagnetic stress, neglect or misuse, (ii) fluctuations in electrical power beyond AVer specifications, (iii) use of the Product with any accessories or options not furnished by AVer or its authorized agents, or (iv) installation, alteration, or repair of the Product by anyone other than AVer or its authorized agents.

Disclaimer of Warranty

EXCEPT AS EXPRESSLY PROVIDED OTHERWISE HEREIN AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, AVER DISCLAIMS ALL OTHER WARRANTIES WITH RESPECT TO THE PRODUCT, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION, SATISFACTORY QUALITY, COURSE OF DEALING, TRADE USAGE OR PRACTICE OR THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NONINFRINGEMENT OF THIRD PARTY RIGHTS.

Limitation of Liability

IN NO EVENT SHALL AVER BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, PUNITIVE, OR CONSEQUENTIAL DAMAGES OF ANY NATURE INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, DATA, REVENUE, PRODUCTION, OR USE, BUSINESS INTERRUPTION, OR PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES ARISING OUT OF OR IN CONNECTION WITH THIS LIMITED WARRANTY, OR THE USE OR PERFORMANCE OF ANY PRODUCT, WHETHER BASED ON CONTRACT OR TORT, INCLUDING NEGLIGENCE, OR ANY OTHER LEGAL THEORY, EVEN IF AVER HAS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. AVER'S TOTAL, AGGREGATE LIABILITY FOR DAMAGES OF ANY NATURE, REGARDLESS OF FORM OF ACTION, SHALL IN NO EVENT EXCEED THE AMOUNT PAID BY YOU TO AVER FOR THE SPECIFIC PRODUCT UPON WHICH LIABILITY IS BASED.

Governing Law and Your Rights

This warranty gives you specific legal rights; You may also have other rights granted under state law. These rights vary from state to state.

For warranty period, please refer to the warranty card.
