

## 12 Station Wireless Listening Center, 12 W901-MULTI Headphones with 1 W900-MULTI Transmitter

The **Hamilton 12 Person Wireless Listening Center** provides everything you need to add wireless audio capability to your classroom. Just connect the transmitter to any audio source such as a CD player, MP3 player or computer and get high quality sound wirelessly to 12 listeners at a time. With four available frequencies you can run up to 4 different audio programs simultaneously (Additional transmitters required). Have a bigger class? Add additional W901-Multi headphones; use as many as you need with a single transmitter.

### This Listening Center Includes:

#### (1) W900-Multi Wireless Transmitter

Transmits high quality audio via VHF to W901 series headphones, W2040 Receivers and W2020 Speakers within a 300 foot range. Connects to any analog audio source through a 1/8" stereo mini plug.
