

YAI-1

Conference Ensemble

Bring superior sound to your large conference room or boardroom with the YAI-1 Conference Ensemble, a professional USB audio solution that works straight out of the box using network wiring – no audio processing skills or AV expertise needed.

The Complete Conferencing Package

- Revolabs Executive Elite 8-channel wireless microphone system
- 8 Revolabs Elite wireless microphones
- Yamaha MRX7-D digital mixer
- 2 Yamaha VXL1-16P line array speaker systems
- Yamaha SWR2100P-5G PoE switch
- Yamaha DCP1V4S digital control panel
- All cables, connectors and wiring
- Pre-configured and installed firmware and software
- Black or white speaker option

Quality Audio Matched With Modern Design

Two active line array speakers specifically designed for larger meeting and conference rooms provide 16 elements in each speaker to ensure a constant audio experience for all participants. Speakers are powered by the included PoE SWR2100P-5G switch.

State of the Art Processing

High-quality audio performance is ensured by Yamaha's audio DSP (digital signal processing) expertise. Adaptive acoustic echo cancellation allows full duplex capabilities and adjusts to the room audio dynamically. Noise reduction allows elimination of acoustic signals like air conditioning sounds. A Dugan mixer is built in to ensure that the output volume stays constant even when several microphones are active.

Perfect Integration

Setup is easy: the system arrives pre-programmed, with microphones already paired, and the USB connection works with your existing conferencing system and standard network wires. Also included are all cables, wiring and a detailed description for connections. The use of Dante for audio over IP allows for standard network cables to be used.

Microphone Flexibility

Designed to provide exceptional audio quality in the most demanding environments, Revolabs Elite wireless microphones provide users with flexibility for a wide range of conference applications. The YAI-1 "Boardroom" package includes 8 Elite wireless gooseneck microphones, while the "Conference" package includes 7 Elite wireless directional microphones and 1 Elite wireless wearable microphone.

Available Options

- YAI-1-BR-BK Boardroom (8 12" goosenecks), black speakers
- YAI-1-BR-WH Boardroom (8 12" goosenecks), white speakers
- YAI-1-CR-BK Conference room (7 directional, 1 wearable), black speakers
- YAI-1-CR-WH Conference room (7 directional, 1 wearable), white speakers
