

Proximity Series

AV STORAGE SOLUTIONS

The Proximity Series supports technology behind the display to elevate any mount to an expertly installed AV system. Options include three sizes of in-wall boxes to house more sophisticated AV equipment with compatible covers to fit the boxes and mounting plates that conceal and reliably mount technology at the display.

IN-WALL BOX

The Proximity Series In-Wall Boxes are engineered to provide convenient storage of AV system components recessed in the wall behind the display. The in-wall boxes provide the flexibility needed for working in tight spaces by leveraging patented, removable Lever Lock™ small device mounting system and multiple plane mounting capability. This innovative design offers unmatched configurability that maximizes space and enables fast, easy mounting of components. Available in three sizes to meet the need of any size AV system behind the display, Proximity Series In-Wall Boxes are ideal for use with VDM Series Single Display and Multi-Display Wall Mounts.

IN-WALL BOX

- Unmatched small device mounting flexibility built-in, with patented Lever Lock™ plates
- Patented UMS pattern simplifies mounting of small devices Lever Lock™ plates
- Four levels of mounting planes to maximize space for storage of gear Lever Lock™ plates
- Boasting the industry's first AV storage solution for 24" stud bays, the in-wall boxes now include 3 sizes to fit the needs of the system: 22"x14", 14"x14", and 9"x14"
- Designed to natively incorporate Middle Atlantic compact power solutions, including the industry's fastest-responding, non-degrading patented Series Protection™ & RackLink™ control
- Certified to UL 2416 for safe, reliable installs
- Adjustable trim ring included that hides dry wall cuts for an aesthetic finish
- Bridge lances offer convenient cable tie down points
- Knockouts in multiple locations on all four sides of the box for easy access to power and cable management where you need it
- Includes J-Box and duplex receptacle
- Compatible Proximity Series In-Wall Box Covers available to restrict visibility and access to equipment

BOX COVERS

Providing an aesthetically, clean finish to the Proximity Series In-Wall Boxes, the metal covers restrict visibility and protect equipment and cables stored within from end users.

MOUNTING PLATE

The Proximity Series Mounting Plate attaches directly to the display mount and offers convenient, local small device mounting and cable tie-down. The included mounting arm attaches directly to any side of your chosen VESA mount, and features multiple locations for attachment of the mounting plate to the arm.

FEATURES

- Patented UMS pattern simplifies mounting of small devices
- 9"x11" plate that attaches to any standard VESA pattern
- Adjustable for a wide range of display sizes
- Included with most standard profile VDM Series Single Display Mounts

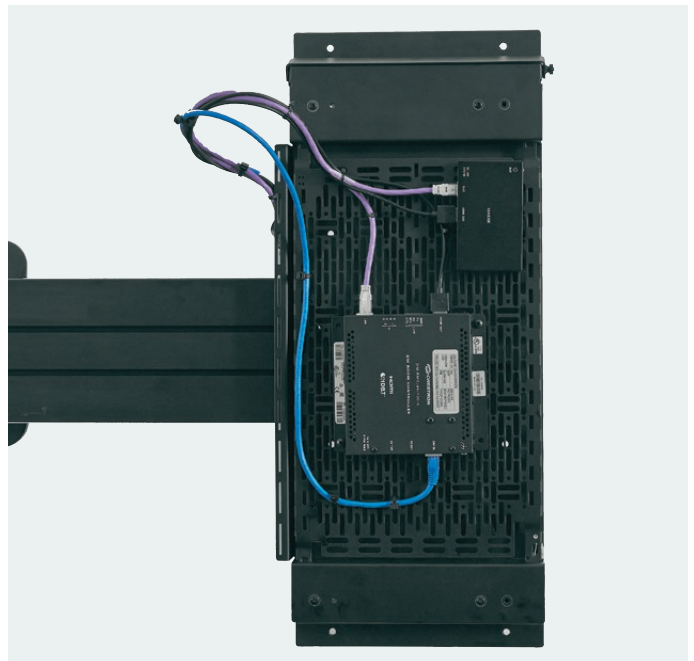

SLIDING MOUNTING PLATE

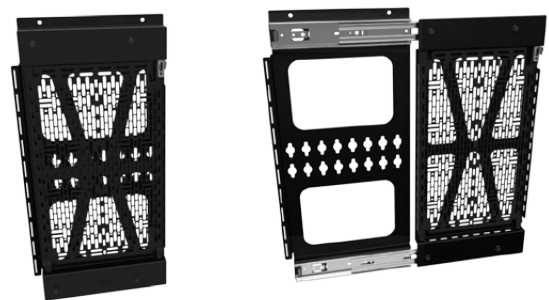

The Proximity Series Sliding Mounting Plate features an unrivaled, patent-pending sliding design, providing accessibility at the display for effortless servicing and concealment of equipment. Tool-free, patented Lever Lock™ is built-in to easily remove the plate from the sliding mechanism to service the system post-installation without touching the display. The Proximity Series Sliding Mounting Plate is the industry's only storage solution that mounts directly to modular style mounts such as VDM Series Multi-Display Wall and Ceiling Mounts, C5 Monitor Mounts, and DisplayStation Carts.

FEATURES

- The industry's only mounting plate with a sliding design that pulls out from behind the display for easy servicing and concealment of equipment
- Removable, patented Lever Lock™ plate allows for post- installation accessibility without disturbing the display
- Patented UMS hole pattern simplifies mounting of small devices
- 15"x10" available space for mounting of components and cable tie-down
- Attachment to VDM Series Multi-Display Wall and Ceiling Mounts, C5 Monitor Mounts, and Display Stations at the front or back of the mount
- Wall mountable for universal use with any wall mount including the VDM Series Single Display Wall Mounts
