A-B. Interactive Projector Board with Brio Trim

- For the best projection surface for your interactive projector, and most durable whiteboard, choose the Interactive Projector Board as your ultimate multi-function board.
- Widescreen dimensions support the most popular sizes of projected images at 86", 107" and 113" diagonals, plus many custom sizes available.
- The special construction of the board provides the flatness required for the best performance of your interactive projector with a flatness guarantee <2mm across the board surface. This flatness assurance also allows the board to be used on mobile carts as well as wall mounting, and still achieves the projector manufacturer's flatness requirements.
- The available gray or white porcelain surfaces can be cleaned of even stubborn permanent markers, and at the same time, engineered to minimize visual strain from anywhere in the room, making it ideal for spaces that are exposed to ambient light.
- The low profile aluminum Brio trim is a clean lined addition for your interactive spaces.
- TAA compliant. Fifty year guarantee.

Item	Specification
4'H x 6'W	86" diagonal
