

UC-MM30-TA

Crestron Flex Tabletop Audio Conference System for Microsoft Teams® Rooms Systems

- *Tabletop audio conferencing solution for Microsoft Teams® Rooms environment*
- *Native Microsoft Teams Rooms touch screen UI provides a consistent user experience with simple operation and one-touch meeting joins*
- *Complete kit contains the Crestron Tabletop conference device and PoE injector— just add a mount*
- *Easy to specify and install — no custom design, programming, or software installation required*
- *Network management and provisioning, system alerts, and the pairing of the Crestron Flex tabletop conference device to the system's UC Engine through the XiO Cloud® service*
- *Enterprise-grade security - connects and communicates securely over any enterprise or SMB network*
- *Dual-band Wi-Fi® connectivity*
- *Supports a single video display*

The Crestron Flex UC-MM30-TA system provides an audio conference room solution for use with the Microsoft Teams Rooms intelligent communications platform. It features a Crestron Flex tabletop conference device (UC-2).

Native Microsoft Teams® Rooms Experience

The UC-MM30-TA system brings the full Microsoft Teams Rooms UC experience to any meeting space in an enterprise or SMB facility.

Intuitive User Interface with Impressive Audio

With a large 7 in. HD color touch screen and an integrated AEC-enabled USB speakerphone that affords full-duplex wideband audio performance, the Crestron Flex Tabletop Conference device (UC-2) provides a superior conferencing and collaboration experience for meeting rooms, huddle spaces, and executive offices.

Enterprise-Grade Security

Crestron Flex is an enterprise-grade solution, engineered in partnership with Microsoft® to integrate seamlessly into any Microsoft Teams Rooms software deployment. Crestron Flex is ideally equipped for mass deployment throughout any sized corporate, university, medical, military, or government facility.

Easy Provisioning and Device Management

The XiO Cloud service is an IoT cloud based provisioning service that enables installers and IT managers to deploy and manage thousands of devices easily. The XiO Cloud service allows for system alerts, network management and provisioning, and the pairing of a control device to the system's UC Engine. System updates are controlled by Windows® software update.

Visit www.crestron.com/xiocloud for additional information.
